The RTA may adopt the draft and incorporate such clauses as may be considered necessary for defining rights and obligations vis- a-vis the issuer. 22. Ease of Doing Investment - Smooth transmission of securities from Nominee to Legal

Heir²⁸

- 22.1. SEBI has streamlined the process of appointing nominee. The nominee acts as a Trustee of the securities of the original security holder and transfers the securities to the legal heir as per succession plan.
- 22.2. As per existing procedure for effecting such transfers, the nominee, while transferring the securities to legal heir, may get assessed for capital gains tax. Payment of tax by the nominee in such a situation may not be appropriate considering that in terms of clause (iii) of Section 47 of the Income Tax Act, 1961, such transmission is exempted and not considered as “transfer”. While the nominee may claim refund of such tax, this process causes inconvenience to the nominee.
- 22.3. In order to alleviate this inconvenience, a Working Group (“WG”) was formed. The WG, based on engagement with the Central Board of Direct Taxes (“CBDT”), recommended that to address the issue, reporting entities should use the reason code “TLH” (i.e. Transmission to Legal Heirs), while reporting such transactions to the CBDT.
- 22.4. Accordingly, in order to streamline the process of transmission of securities from nominee to legal heir and resolve the abovementioned issues related to taxation, it has been decided that a standard reason code viz. “TLH” shall be used by the reporting entities while reporting the transmission of securities from nominee to legal heir, to the CBDT so as to enable proper application of the provisions of the Income Tax Act, 1961.
- 22.5. The procedural requirements for transmission of securities to legal heir shall continue to be as provided under the provisions of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 and Para 21 of this Master Circular (as updated from time to time).

25. Deletion of name of the financial institution in case of physical security certificate earlier pledged by the investor with such financial institution³²

- 25.1. SEBI has been receiving representations from the RTAs/Issuer Companies facing difficulties in processing the investor requests to demat the securities in cases where physical securities were earlier pledged with a financial institution.
- 25.2. In such cases, as was the practice in force at that time, the financial institutions (“Lenders”) would add their name also on the security certificate pledged with them along with the person availing the facility/loan (“Borrower”).
- 25.3. In this regard, to protect the interest of the investors and in order to ensure that investors get their securities back in their own name after full repayment of facility/loan, RTAs/Issuer Companies may delete the name of such lender subject to the following conditions:

Annexure-21

1. Which regulations provide provisions for association of persons regulated by the Board, MIs, and their agents with another person engaged in prohibited activities?

Regulation 16A of Securities and Exchange Board of India (Intermediaries) Regulations, 2008 ('Intermediaries Regulations'), Regulation 44B of Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, 2018 ('SECC Regulations') and Regulation 82B of Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018 ('DP Regulations') provide the provisions on association of persons regulated by the Board, MIs, and their agents with another person engaged in prohibited activities (hereinafter referred to as "the regulations" or "these regulations" in this circular).

2. Who is a 'person regulated by the Board' for these regulations?

The term 'Person regulated by the Board' is defined in Intermediaries Regulations as-

- (a) a person registered with the Board under section 12 of the Act;
- (b) an asset management company of a mutual fund registered with the Board;

(c) investment manager of an alternative investment fund or infrastructure investment trust registered with the Board;

(d) manager of a real estate investment trust registered with the Board;

SECC Regulations and DP Regulations have similar provisions on association with another person, as in Intermediaries Regulations, for recognised stock exchanges, clearing corporations and registered depositories (MIs) respectively.

In this circular, hereinafter, for the ease of reference, person regulated by Board as defined under Intermediaries Regulations and MIs are collectively referred to as “persons regulated by the Board.”

3. Who is an agent of persons regulated by the Board?

As per section 182 of the Indian Contract Act, 'agent' is a person who is employed to do any act for another, or to represent another in dealings with third persons. Whether a person is an agent of another person regulated by the Board is fact specified. Some examples of agent are: Employees, Mutual Fund Distributors, Authorised Persons of stock brokers etc.

4. What are the restrictions on persons regulated by the Board and their agents on their association with another person?

Persons regulated by the Board and their agents shall not have any direct or indirect association with another person who is engaged in any of the two activities not permitted by the Board. These two prohibited activities are:

(i) providing advice or any recommendation, directly or indirectly, in respect of or related to a security or securities, without being registered with or otherwise permitted by the Board to provide such advice or recommendation; and

(ii) making any claim, of returns or performance expressly or impliedly, in respect of or related to a security or securities, without being permitted by the Board to make such a claim.

5. What constitutes an association between persons regulated by the Board and their agents with another person?

The “association” for the purposes of these regulations shall mean the association in the nature of transaction involving money or money’s worth or referral of a client or interaction of information technology systems or any other association of similar nature or character, by any name called.

6. Whether persons regulated by the Board are responsible to ensure that the persons with whom they associate do not engage in abovementioned two prohibited activities?

Yes. It is the responsibility of the persons regulated by the Board to ensure that any person associated with them or their agent, directly or indirectly, does not engage in any of the abovementioned two prohibited activities, directly or indirectly. However, such responsibility shall be with respect and to the extent of their association.

Example: If a broker is availing tax advisory services from a tax advisor and his association with the tax advisor is limited to availing such services, the broker shall only have the responsibility to ensure, while availing such services, that such tax advisor is not engaged in prohibited activities.

7. Are there any restrictions on persons regulated by the Board and their agents to associate with another person who is engaged in investor education?

Investor education is not one of the two prohibited activities under these regulations. However, it must be ensured by the persons regulated by the Board that such person providing education does not engage in any of the abovementioned two prohibited activities, directly or indirectly.

8. What distinguishes education and advice/recommendation?

A person engaged solely in education shall mean that such person is not engaged in any of the two prohibited activities. Such person should not be using the market price data of the preceding three months to speak/talk/display the name of any security including using any code name of the security in his/her talk/speech, video, ticker, screen share etc. indicating the future price, advice or recommendation related to security or securities.

9. Whether the professional services provided by the person regulated by the Board to another person (e.g. an unregistered IA), like opening of his personal demat account or trading account, amount to association of such person with such another person?

There is no restriction on any person in availing the professional services offered by persons regulated by the Board, or their agents such as demat account or trading account services provided that such services/accounts are not used for any of the abovementioned two prohibited activities, directly or indirectly.

Example: Any person can avail demat account services from any depository participant without any restriction. Such demat account of a person with DP shall not amount to association of a DP with that person. However, in case such demat account is used to engage in aforesaid two prohibited activities, directly or indirectly, depository participant shall take appropriate necessary action to deactivate/discontinue the services for such demat account.

10. Whether stock brokers can avail services of another person who is engaged in any of the abovementioned two prohibited activities?

Persons regulated by the Board including stock brokers can not avail services of another person who is engaged in any of the abovementioned two prohibited activities, directly or indirectly.

11. Whether the Mutual Fund Distributors (MFDs), Authorised Persons (APs), Portfolio Management Services Distributors (PMS Distributors) and Alternative Investment Fund Distributors (AIF Distributors) are required to comply with these regulations for their association with another person?

MFDs, APs, PMS Distributors and AIF Distributors are agents of Asset Management Companies (AMCs), stock brokers, portfolio managers and investment manager of AIFs respectively. AMCs, stock brokers, stock brokers, portfolio managers and investment manager of AIFs being persons regulated by the Board are responsible to ensure compliance of their agents with these regulations.

12. What are the consequences of violation of these regulations for persons regulated by the Board and their agents?

As per Regulation 16B of Intermediaries Regulations and Regulation 82C of DP Regulations, SEBI may, in case of violation of any of the provisions of Regulation 16A of Intermediaries Regulations and Regulation 82B of DP Regulations respectively, take such action as it may deem fit including action under Chapter V of Intermediaries Regulations. Such action may include the enquiry, adjudication or an order under Section 11B of SEBI Act, 1992.

Further, in terms of Regulations 44C of SECC Regulations, SEBI may, in case of violation of any of the provisions of Regulation 44B of SECC Regulations, take such action as it may deem fit including action as provided under regulation 49 of SECC Regulations. Such action may include adjudication or an order under Section 11B of SEBI Act, 1992.

Potential actions could include penalty, suspension/cancellation of registration, debarment etc.

13. Can SEBI registered intermediaries make any payment to or receive payment from or share or receive any client information from or with another person engaged in any of the abovementioned two prohibited activities, directly or indirectly?

For the purposes of these regulations, “association” means-

- (a) a transaction involving money or money’s worth;
- (b) referral of a client;
- (c) interaction of information technology systems;
- (d) any other association of a similar nature or character.

Sharing client information is of similar nature as of “referral of a client”. Hence, making any payment or receiving payment or sharing any client information from or with any person shall amount to “association” under these regulations, and is not permitted.

Thus, such intermediaries are prohibited to make any payment or receive payment or share any client information from or with another person engaged in any of the abovementioned two prohibited activities, directly or indirectly.

14. Whether persons regulated by the Board and their agents are allowed to associate for their branding/marketing/promotional activities with another person?

The persons regulated by the Board and their agents are allowed to associate for their branding/marketing/promotional activities with another person provided that such another person is not engaged in any of the abovementioned two prohibited activities, directly or indirectly.

15. Can SEBI regulated entities and their agents associate with another person who is promoting consumer products from the sectors such as banking, financial services, and insurance, which are not regulated by SEBI?

Some of the products which are not under the purview of SEBI may come under the jurisdiction of some other regulatory authority. Hence, regulatory provisions of such other regulatory authority shall be applicable. However, persons regulated by the Board shall ensure that they and their agents shall not associate, directly or indirectly, with another person if such another person is engaged in any of the abovementioned two prohibited activities, directly or indirectly.

e.g. if a broker associates with a person (who is promoting insurance product) engaged in any of the two prohibited activities, it would be violation of the SEBI regulations since the Intermediaries Regulations prohibit any association, directly or indirectly, with another person engaged in any of the two prohibited activities.

16. Do the following amount to violation under the regulations?

- a) **Advertising/branding/lead generation through a marketing agency by any name.**

The same shall amount to violation of the regulations if the person regulated by the Board or its agent indirectly ends up in getting associated with an entity engaged in any of the two prohibited activities.

- b) **Association through digital platforms where person regulated by Board or its agent has control on where any advertisement/content appear.**

No, if a person regulated by Board or its agent does not, directly or indirectly, end up in getting associated with an entity engaged in any of the two prohibited activities. Since the person or its agent has control on where its advertisement/content appear, it can ensure that there is no such association.

- c) **Association through digital platforms where person regulated by Board or its agent has no control over the content/entity with whom it gets associated.**

The same shall amount to violation of the regulations if the person regulated by Board or its agent indirectly ends up in getting associated with an entity engaged in any of the two prohibited activities.

17. When will these regulations come into effect?

These regulations have come into force with effect from August 29, 2024. Persons regulated by the Board and their agents have been advised through a circular dated October 22, 2024 to terminate their existing contracts, if any, with persons engaged in any of the abovementioned two prohibited activities, directly or indirectly, within three months from the date of issuance of that circular. Hence, these regulations are already in force.

Many a time the risk & compliance data of the institution moves cross border beyond the legal and jurisdictional boundary of India due to the nature of shared cloud SaaS. While SaaS may provide ease of doing business and quick turnaround, it also brings significant risk to the overall health of India's financial sector with respect to data safety and security.

Description

If the following data sets fall in the hands of an adversary/cyber attacker, it may lead to unprecedented increase in the attack surface area and weakening of Indian financial sector infrastructure's overall resilience.

- Credit Risk Data
- Liquidity Risk Data
- Market Risk Data
- System & Sub-System Information
- Internal & Partner IP Schema
- Network Topography & Design
- Audit/Internal Audit Data
- System Configuration Data
- System Vulnerability Information
- Risk Exception Information
- Supplier Information & its dependencies related Data

Solution

The Financial Sector organisations may be advised to protect such critical data using layered defence approach and seamless protection against external or insider threat. The organisations may also be advised to ensure complete protection & seamless control over their critical system by continuous monitoring through direct control and supervision protocol mechanisms while keeping such critical data within the legal boundary of India.

The organisations may also be requested to report back to their respective regulatory authority regarding compliance to this advisory.

It is requested that you may kindly keep CERT-In informed of the actions taken and periodically provide the updated compliance to this advisory.

PRINCIPLES FOR OUTSOURCING FOR RTAS

1. An RTA seeking to outsource activities shall have in place a comprehensive policy to guide the assessment of whether and how those activities can be appropriately outsourced. The Board I partners (as the case may be) {hereinafter referred to as the "the Board"} of the RTA shall have the responsibility for the

outsourcing policy and related overall responsibility for activities undertaken under that policy.

1.1 The policy shall cover activities or the nature of activities that can be outsourced, the authorities who can approve outsourcing of such activities, and the selection of third party to whom it can be outsourced. For example, an activity shall not be outsourced if it would impair the supervisory authority's right to assess, or its ability to supervise the business of the RTA. The policy shall be based on an evaluation of risk concentrations, limits on the acceptable overall level of outsourced activities, risks arising from outsourcing multiple activities to the same entity, etc.

1.2 The Board shall mandate a regular review of outsourcing policy for such activities in the wake of changing business environment. It shall also have overall responsibility for ensuring that all ongoing outsourcing decisions taken by the RTA and the activities undertaken by the third-party, are in keeping with its outsourcing policy.

2 The RTA shall establish a comprehensive outsourcing risk management programme to address the outsourced activities and the relationship with the third party.

2.1 An RTA shall make an assessment of outsourcing risk which depends on several factors, including the scope and materiality of the outsourced activity, etc. The factors that could help in considering materiality in a risk management programme include-

a. The impact of failure of a third party to adequately perform the activity on the financial, reputational and operational performance of the RTA and on the investors | clients;

- b. Ability of the RTA to cope up with the work, in case of non performance or failure by a third party by having suitable back-up arrangements;
- c. Regulatory status of the third party, including its fitness and probity status;
- d. Situations involving conflict of interest between the RTA and the third party and the measures put in place by the RTA to address such potential conflicts, etc.

2.2 While there shall not be any prohibition on a group entity I associate of the RTA to act as the third party, systems shall be put in place to have an arm's length distance between the RTA and the third party in terms of infrastructure, manpower, decision-making, record keeping, etc. for avoidance of potential conflict of interests. Necessary disclosures in this regard shall be made as part of the contractual agreement. It shall be kept in mind that the risk management practices expected to be adopted by an RTA while outsourcing to a related party or an associate would be identical to those followed while outsourcing to an unrelated party.

2.3 The records relating to all activities outsourced shall be preserved centrally so that the same is readily accessible for review by the Board of the RTA and I or its senior management, as and when needed. Such records shall be regularly updated and may also form part of the corporate governance review by the management of the RTA.

2.4 Regular reviews by internal or external auditors of the outsourcing policies, risk management system and requirements of the regulator shall be mandated by the Board wherever felt necessary. The RTA shall review the financial and operational capabilities of the third party in order to assess its ability to continue to meet its outsourcing obligations.

3 The RTA shall ensure that outsourcing arrangements neither diminish its ability to fulfill its obligations to customers and regulators, nor impede effective supervision by the regulators.

3.1 The RTA shall be fully liable and accountable for the activities that are being outsourced to the same extent as if the service were provided in-house.

3.2 Outsourcing arrangements shall not affect the rights of an investor or client against the RTA in any manner. The RTA shall be liable to the investors for the loss incurred by them due to the failure of the third party and also be responsible for redressal of the grievances received from investors arising out of activities rendered by the third party.

3.3 The facilities | premises | data that are involved in carrying out the outsourced activity

by the service provider shall be deemed to be those of the registered RTA. The RTA itself and Regulator or the persons authorized by it shall have the right to access the same at any point of time.

3.4 Outsourcing arrangements shall not impair the ability of SEBI/SRO or auditors to exercise its regulatory responsibilities such as supervision/inspection of the RTA.

4 The RTA shall conduct appropriate due diligence in selecting the third party and in monitoring of its performance.

4.1 It is important that the RTA exercises due care, skill, and diligence in the selection of the third party to ensure that the third party has the ability and capacity to undertake the provision of the service effectively.

4.2 The due diligence undertaken by an RTA shall include assessment of:

- a. third party's resources and capabilities, including financial soundness, to perform the outsourcing work within the timelines fixed;
- b. compatibility of the practices and systems of the third party with the RTA's requirements and objectives;
- c. market feedback of the prospective third party's business reputation and track record of their services rendered in the past;
- d. level of concentration of the outsourced arrangements with a single third party; and
- e. the environment of the foreign country where the third party is located.

5 Outsourcing relationships shall be governed by written contracts I agreements I terms and conditions (as deemed appropriate) {hereinafter referred to as "contract"} that clearly describe all material aspects of the outsourcing arrangement, including the rights, responsibilities and expectations of the parties to the contract, client confidentiality issues, termination procedures, etc.

5.1 Outsourcing arrangements shall be governed by a clearly defined and legally binding written contract between the RTA and each of the third parties, the nature and detail of which shall be appropriate to the materiality of the outsourced activity in relation to the ongoing business of the RTA.

5.2 Care shall be taken to ensure that the outsourcing contract:

- a. clearly defines what activities are going to be outsourced, including appropriate service and performance levels;
- b. provides for mutual rights, obligations and responsibilities of the RTA and the third party, including indemnity by the parties;
- c. provides for the liability of the third party to the RTA for unsatisfactory performance/other breach of the contract
- d. provides for the continuous monitoring and assessment by the RTA of the third party so that any necessary corrective measures can be taken up immediately, i.e., the contract shall enable the RTA to retain an appropriate level of control over the outsourcing and the right to intervene with appropriate measures to meet legal and regulatory obligations;
- e. includes, where necessary, conditions of sub-contracting by the third-party, i.e. the contract shall enable RTA to maintain a similar control over the risks when a third party outsources to further third parties as in the original direct outsourcing;
- f. has unambiguous confidentiality clauses to ensure protection of proprietary and customer data during the tenure of the contract and also after the expiry of the contract;
- g. specifies the responsibilities of the third party with respect to the IT security and contingency plans, insurance cover, business continuity and disaster recovery plans, force majeure clause, etc.;
- h. provides for preservation of the documents and data by third party;
- i. provides for the mechanisms to resolve disputes arising from implementation of the outsourcing contract;

j. provides for termination of the contract, termination rights, transfer of information and exit strategies;

k. addresses additional issues arising from country risks and potential obstacles in exercising oversight and management of the arrangements when RTA outsources its activities to foreign third party. For example, the contract shall include choice-of-law provisions and agreement covenants and jurisdictional covenants that provide for adjudication of disputes between the parties under the laws of a specific jurisdiction;

l. neither prevents nor impedes the RTA from meeting its respective regulatory obligations, nor the regulator from exercising its regulatory powers; and

m. provides for the RTA and /or the regulator or the persons authorized by it to have the ability to inspect, access all books, records and information relevant to the outsourced activity with the third party.

6 The RTA and its third parties shall establish and maintain contingency plans, including a plan for disaster recovery and periodic testing of backup facilities.

6.1 Specific contingency plans shall be separately developed for each outsourcing arrangement, as is done in individual business lines.

6.2 An RTA shall take appropriate steps to assess and address the potential consequence of a business disruption or other problems at the third party level. Notably, it shall consider contingency plans at the third party; co-ordination of contingency plans at both the RTA and the third party; and contingency plans of the RTA in the event of non-performance by the third party.

6.3 To ensure business continuity, robust information technology security is a necessity. A breakdown in the IT capacity may impair the ability of the RTA to fulfill its obligations to other market participants/clients/regulators and could undermine the privacy interests of its customers, harm the RTA's reputation, and may ultimately impact on its overall operational risk profile. RTAs shall, therefore, seek to ensure that third party maintains appropriate IT security and robust disaster recovery capabilities.

6.4 Periodic tests of the critical security procedures and systems and review of the back-up facilities shall be undertaken by the RTA to confirm the adequacy of the third party's systems.

7 The RTA shall take appropriate steps to require that third parties protect confidential information of both the RTA and its customers from intentional or inadvertent disclosure to unauthorised persons.

7.1 An RTA that engages in outsourcing is expected to take appropriate steps to protect its proprietary and confidential customer information and ensure that it is not misused or misappropriated.

7.2 The RTA shall prevail upon the third party to ensure that the employees of the

third party have limited access to the data handled and only on a "need to know" basis and the third party shall have adequate checks and balances to ensure the same.

7.3 In cases where the third party is providing similar services to multiple entities, the RTA shall ensure that adequate care is taken by the third party to build safeguards for data security and confidentiality.

8 Potential risks posed where the outsourced activities of multiple RTAs are concentrated with a limited number of third parties.

In instances, where the third party acts as an outsourcing agent for multiple RTAs, it is the duty of the third party and the RTA to ensure that strong safeguards are put in place so that there is no co-mingling of information /documents, records and assets.

Regulatory Exemptions

23. To encourage innovation with minimal regulatory burden, SEBI shall consider exemptions/ relaxations, if any, which could be either in the form of a comprehensive exemption from certain regulatory requirements or selective exemptions on a case-by-case basis, depending on the Innovative solution to be tested.

24. Within the overarching principles of market integrity and investor protection, no exemptions would be granted from the extant investor protection framework, Know-Your-Customer (KYC) and Anti-Money Laundering (AML) rules.

25. Entities desirous of participating in sandbox shall make an application, including exemption / relaxation being sought from relevant provisions of the applicable regulatory framework.

26. The registration granted by SEBI to all entities registered with SEBI under Section 12 of the SEBI Act, 1992 is activity based. An entity which is registered with SEBI for a particular activity is authorized to carry out activity in that domain. In order to enable the cross domain testing of innovative solutions, an existing registered entity would be required to first obtain a limited certificate of registration for the category of intermediary for which it seeks to test the Innovative solution(s). This concept of limited registration shall facilitate the entities to operate in a Regulatory Sandbox without being subjected to the entire set of regulatory requirements to carry out that activity.

27. Accordingly, regulatory relaxations from various SEBI regulations may be provided after analyzing specific sandbox testing applications. A reference list is given at **Annexure-29C** with examples of the regulatory requirements that will be mandatory and those for which SEBI may consider granting relaxation during the sandbox testing.

28. SEBI has notified SEBI Regulatory Sandbox (Amendment) Regulations, 2020 so as to enable the grant of relaxation(s)/exemption(s), as may be deemed fit, while granting such limited certificate of registration.

Submission of Test Related Information and Reports

for a period of three (3) years from the date of completion of testing/ exit from the sandbox.

Obligations of the Applicant towards the User

34. The applicant shall ensure that before signing up, the user has read the full documentation provided by the applicant and confirm that he/she is aware of the risks of using the solution and if asked by SEBI, submit the user consent form in the format prescribed in **Annexure-29D**.

35. Right of the users participating in the sandbox:

35.1. The applicant shall ensure that users participating in the sandbox have the same protection rights as the ones participating in the live market except for the specific provisions mentioned in the user consent form and relaxations granted under regulatory sandbox.

35.2. The applicant shall take liability / indemnity insurance of an adequate amount and period to safeguard the users participating in the sandbox. The adequacy of indemnity cover shall depend on determination of the maximum liability based on, among others, (i) maximum exposure to a single user (ii) the number of claims that could arise from a single event (potential for multiple claims); and (iii) number of claims that might be expected during the policy period. The policy cover shall begin with the start of testing stage and end three months after exit of the sandbox entity from the regulatory sandbox.

i) SEBI shall decide whether to permit the innovation to be introduced in the market on a wider scale. Where allowed, applicants intending to carry out regulated businesses shall be assessed based on applicable licensing, approval and registration criteria under various SEBI regulations, as the case may be.
